

The *Société Francophone de Transplantation* features the 2025 Spring HITS,
Paris, March 27-28th 2025

“Innovative Diagnostics and Treatment of Infections in Transplantation”

Novotel Paris Centre Tour Eiffel
61 Quai de Grenelle
75738 – Paris CEDEX 15

DAY 1 (March 27th)

13H30: Welcome address

- **Transplant hepatitis: Unusual suspects.** *Jerome Dumortier, Alessandra Mazzola*

13H45-14H15: *Jacques Fourgeaud (Paris)*

Metagenomic evaluation of indeterminate hepatitis in immunocompromised patients

14H15-14H45: *Benedicte Neven (Paris)*

Enterovirus associated hepatitis.

14H45-15H15: *Nassim Kamar (Toulouse)*

Viral hepatitis transmitted by the donor (B, C, E)

15H15-15H30: *Imane Fahrat (Dijon)*

Clinical case: Spiroplasma hepatitis with metagenomic diagnosis

Round table (15H30-16H00): *Jacques Fourgeaud, Benedicte Neven, Nassim Kamar, Imane Fahrat*

16H00-16H30: Coffee Break

- **CMV: when a big virus turns into a big problem:** *Julie Merville, Danielle Bensouan*

16H30-17H00: *Manuel Joseph Oriol (Lausanne)*

Resistant and refractory CMV

17H00-17H30: *Martina Sester (Hambourg)*

From a better understanding of the host-virus relationship in SOT to diagnostic and therapeutic perspectives

17H30-18H00: *Lionel Couzi (Bordeaux)*

Preclinical stage therapy: Gamma Delta T cells for CMV disease

18H00-18H45 : *Rajiv Khanna (Brisbane, Australie)*

CMV-specific T-cell therapy

Round table (18H45-19H00): *Manuel Joseph Oriol, Martina Sester, Lionel Couzi, Rajiv Khanna*

Steering Committee:

Julien Branchereau
Lionel Couzi
Jerome Dumortier
Antoine Durrbach
Eric Epailly
Nassim Kamar
Hannah Kaminski
Christophe Mariat
Edouard Sage
Laurent Sebbag
Antoine Sicard
Jean Luc Taupin
Olivier Thaumat
Julien Zuber

DAY 2 (March 28th)

- **Navigating pathogenesis: infectious diseases challenges in transplant recipients:**
Julien Zuber, Sophie Candon

8H15-8H45: *David Boutboul (Paris)*

From pathophysiology to diagnostic and therapeutic perspectives for EBV and HHV

8H45-9H15: *Sophie Caillat Zucman (Paris)*

divergence HLA / immunopeptidomes and BK virus after transplantation.

9H15-9H45: *Jean Daniel Lelievre (Paris)*

Vaccination, physiopathology and strategies in immunocompromised patients

Round table (9H45-10H15): *David Boutboul, Sophie Caillat Zucman, Jean Daniel Lelievre*

10H15-10h45: Coffee Break

- **Targeting infectious encephalitis in transplant recipients: diagnostic and therapeutic breakthroughs:** *Jean-Paul Stahl, Pierre Tattevin*

10H45-11H15: *Marie Benedicte Lestang (Paris)*

Pegivirus: a case series

11H15-11H45: *Marion Le Maréchal (Grenoble)*

Diagnosis of indeterminate encephalitis in immunocompromised patients

11H45-12H30: *Irene Cortese (Bethesda, USA)*

Innovative therapies in infectious encephalitis in immunocompromised patients

Round table (12H30-13H00): *Marie Benedicte Lestang, Marion Le Maréchal, Irene Cortese*

13H00: *Hannah Kaminski*: Closing remarks
